Forecast for Thursday 15 Jul 2021

Weather: Patches of low cloud will spread eastwards across the west of the park after midnight, steadily becoming more widespread towards dawn. However, any cloud will break and lift during the early morning, allowing plenty of prolonged sunshine therefater. Remaining dry and largely sunny in the evening.

Chance of cloud free mountain/hill tops above 600m: 30-40% in the west (60-70% in the east) initially but quickly increasing to 100%.

Visibility: Mediocre initially in the west, with cloud bases 500-600m. Improving to very good early in the morning with distant hills becoming clearly visible all around and for much of the day.
